

Director(s) at Large, Board of Directors – Position Description

The board may fill other director positions, known as Directors at Large, in accordance with the bylaws. Similar to the Director Without Portfolio, these directors also bring to the board individual knowledge, skills and backgrounds that contribute to the growth of the society in a variety of ways. As the needs of the society evolve, Directors at Large will contribute to areas such as strategic planning, performance measurement, arts industry diversity and inclusiveness, organizational development, not-for-profit governance, performing arts policy or regulatory experience. While musical theatre experience is not required for these two positions, positive appreciation and support for our art form is a must.

- Supports in other areas as required.
